Status: The BQS Campground provides outdoor recreation for three classifications of campers: **Short Term Campers**, **Building Campers**, and **Full-Season Campers**. Fees, deposits, regulations and legal agreements vary for each of the three categories.

Short Term Campers.
Fees: $20 daily, $75 weekly, $150 monthly
Restrictions: The first 6 campsites are set aside for short term campers and may be used by BQS lot owners, their guests and associate members. Associate members may not extend camping privileges to guests.
Deposit: $20 to be returned after a post-contract inspection of the site shows that the site has been vacated, left clean and with no damages caused during the stay.
Agreement: Camper and/or sponsoring BQS member both agree that BQS maintenance staff will use the $20 deposit to repair any damages or to offset cost of removal and disposal of any items left at the site.

Building Campers.
Fee: $360 per year for first two years; $460 per year for any additional time granted by the BQS Board of Directors.
Restrictions: To qualify for this status, a BQS Lot Owner must be ***actively*** involved (foundation and walls by the end of the first year; under roof by the end of the second year) in the construction of permanent housing at BQS.
Deposit: $200 to be returned after a post-contract inspection of the site shows that the site has been vacated, left clean and with no damages caused during the stay.
Agreement: Camper agrees that BQS maintenance staff will use the $200 deposit to repair any damages or to offset cost of removal and disposal of any items left at the site.

Full-Season Campers.
Fee: $800 per year payable in full by no later than February 1 of the seasonal contract year.
Restrictions: The seasonal camping year runs from April 1 to December 31 each year. To prevent use of sites for storage, seasonal camping privileges are not open to BQS homeowners. Only one camping vehicle is allowed per site. Only one site is allowed per BQS membership. No storage sheds are permitted. All Seasonal Camping sites must be vacated by January 7 of each year to permit maintenance of the campground. Camping vehicles are permitted to return on April 1 provided a new seasonal contract has been signed and paid for and that the camper was in good standing at the end of the previous season. Campers can reserve the same camping site by signing a new contract at the time of seasonal removal of their camping vehicle.
Deposit: $400 to be returned after a post-contract inspection of the site shows that the site has been vacated, left clean and with no damages caused during the stay.
Agreement: Camper agrees that BQS maintenance staff will use the $400 deposit to repair any damages or to offset cost of removal and disposal of any items, including vehicles, left at the site.
